6/6/18

Dear MacLennan

I was indeed glad to hear from you that all was well. What a fighter Macgillivray is, how he would enjoy a go at the Germans. Perhaps he will get a chance.

Dont forget to have a photo taken of head & shoulders when you get a chance.

I will send you out a blow pipe & drill & if you like I will look after any skins & eggs you get. Then when you go back you can get them again.

The magpie versus brown episode was very entertaining. Bad luck on the Sentinel, after all.

All the birds are new to you, perhaps will have an interesting time observing them, if you get time.

We are having a dry time, but I think the corn crop will be good. I start lay making on the south slope for a good return.

There is not much news in the Australian bird world. I go on with my work when I have time.

Wishing you all good luck

Yours Sincerely

G. M. Mathews

Dear MacLennan

Many thanks for your photo and notes. They are very good and just what I wanted. I will get MacGillivray to fit in the trips with him.

We were all very sorry to hear that you had hurt your hand & hope all is well with you now. We also wish you all good

luck while abroad. Let me know when you get leave & come here for a day or so if you can.

Then you can have a photo taken of your head & shoulders which will be better than this small one.

I notice you write both MacLennan and McLennan. Which is right?

With kind regards wishing you good luck

Yours Sincerely

G. M. Mathews

5/12/05

Dear Maclennan

I am glad to hear that you are to get away before the cold commences on this side. Well you take all good wishes from me my family & may all go well with you both now in the future.

I will always be very glad that I was able to see you, although I think it could have been oftener.

You are one of the Progressive men in Australia, who will carry on the good work on modern lines.

I know I make mistakes, but

if people would look to the other side, they would find that I also have helped our science along.

If I had men like you & Dr Mac. Capt. White & Tom Carter we could do a lot in a short time.

I am now in bed with flu & don't think when I will be up, it leaves me very weak & depressed.

I will send on your other thing when I hear that you have arrived in Australia.

With all good wishes for your future success

Yours Sincerely

Gregory M. Matthews
